TRAVEL ACCESSORIES

My office is where I am: Around the clock and around the world. TROIKA has the right organisational talent. Smart, thoughtful and flexible - made for a mobile society 4.0.

For many years one of our absolute favourite themes; emotional, decorative, fashionable, stylish, unusual and technically sophisticated keyrings. Whatever you are looking for - TROIKA has it in its collection.

We're looking forward to 2019, especially the chance to present many new products and ideas. Because the TROIKA range is not rigid and evolves from year to year through current trends there are some small changes to note.

Organised travel is becoming more and more important to our customers and to us, so this year we have a dedicated category for this topic. You will find all of our products in three different categories: Travel Accessories, Keyrings and Men's gifts.

DESIGN KEYRINGS

GIFTS FOR MEN

What do you give the modern man? Here are our suggestions: from big to small, from design to technical, from totally trendy to wonderfully sentimental. TROIKA has innovative gift ideas for the modern man - at home or at work.

2019

Always on the right page.

Smart and (cheekily) funny: BOOKMARKS peep out from above the book to say: "This is your page, you have reached the correct one here!" They will turn even the driest book into a joy to read.
